因为郁金香玩家比较少,降低改装成本,准备免费向大家提供面板及连接板,其他螺丝外壳 去 X 宝

首先用 PCB 面板进行卡位,开四个螺丝孔,为了使螺丝孔位置更加精确需要固定两侧面板,上下壳都需要开四个螺丝孔,注意分清上下壳,边缘,正反,一定要注意,壳子是分上下的

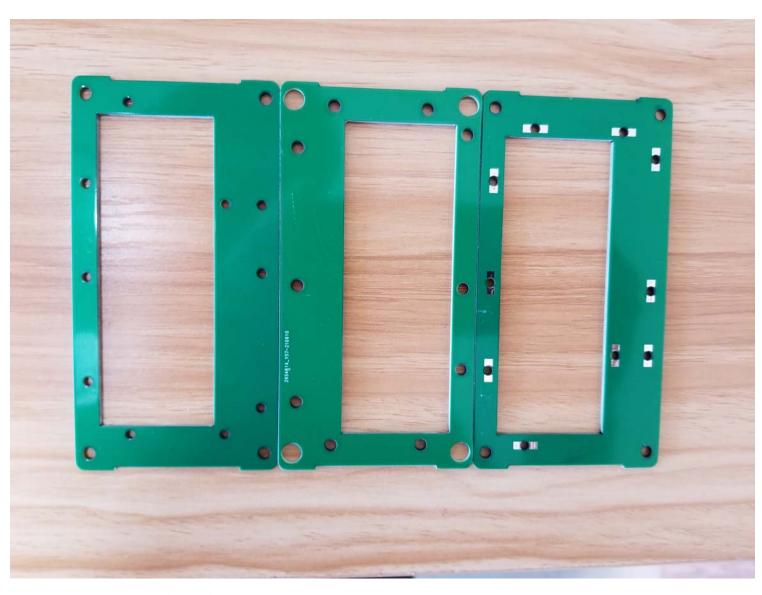

开面孔按照大概这个尺寸和形状开就行

这个螺丝柱需要自备, 其他用套件的即可

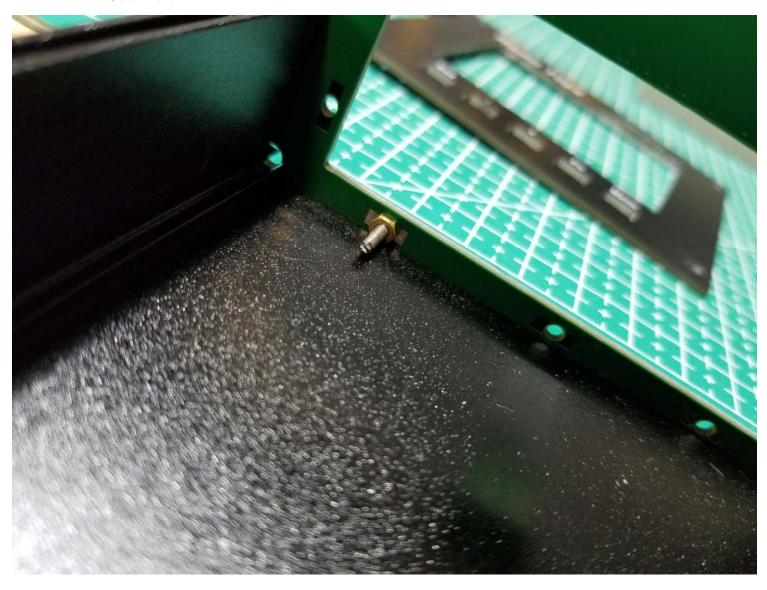

注意 USB 接口需要向里移动 下边空间较大,所以侧板按需开孔即可(天线孔 耳机孔等等)

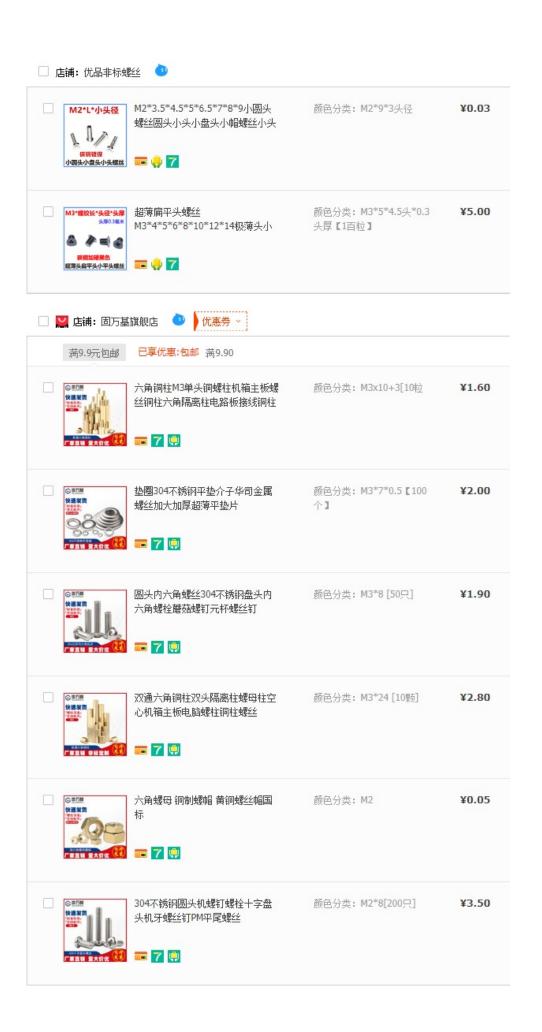

连接板示意,注意方向!

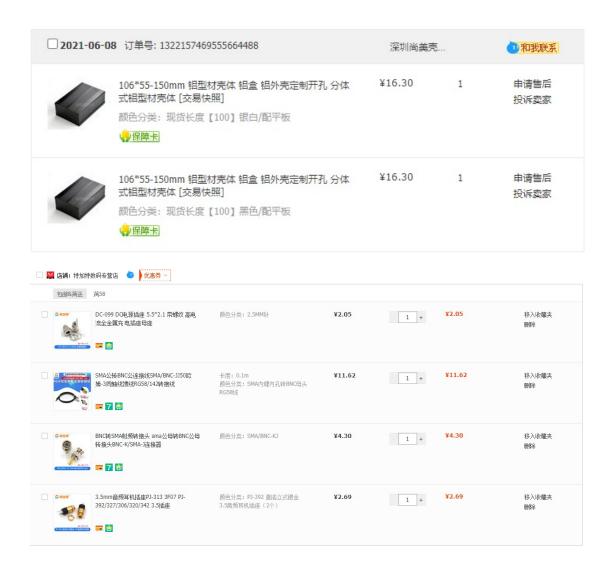

固定铜螺母 焊接注意事项,先装上侧板,然后拧上固定孔螺丝母,起到固定作用,逐个焊接螺丝母即可

最后至于安装顺序各位玩家自己掌握,稍微有点复杂,八仙过海各显神通吧~!!!
